Filtration power for your needs.

With BRITA's proven filtration solutions, you can be sure of excellent tasting water – meeting high hygiene, quality and environmental standards.

Activated carbon

Reduces substances that impair taste and odour.

Ion exchanger

Minimises limescale and metals, e.g. lead.

Membrane

Filters out bacteria and cysts.

Whatever your local water condition is like, BRITA makes sure it works for your organisation. Staff stay hydrated more easily, guests enjoy a better experience, and patients can always rely on safe refreshment.

Filtration and hygiene that pay off for your business: our solutions protect your equipment, reduce service needs, and cut costs – all while fitting seamlessly into your daily routines.

CLARITY Protect

Water filter: Reliably safe,
excellent water for your dispenser.

Reduces*:

- Particles such as microplastics and sand
- Per- and polyfluoroalkyl substances (PFAS)
- Metals such as lead
- Pharmaceuticals, pesticides and hormones
- Chlorine taste and odour
- Organic impurities
- Asbestos fibres
- Removes bacteria and microbial cysts

*If present in the tap water

Contact us today: www.brita.net

NSF component
listed**

*applies to all materials that come into contact with water, ** Tested in a generic housing to a capacity of 11,500 l at 3 LPM for the reduction of Chlorine, Taste and Odour, and Cyst. Health effect testing per NSF/ANS Standard 53 (tested by an independent laboratory)

CLARITY Protect

Water filter: Reliably safe,
excellent water for your dispenser.

Mains water is strictly controlled. But healthcare and similar environments where hygiene is of the utmost importance demand an extra level of safety. CLARITY Protect delivers this through multi-stage filtration, rather than a single activated carbon filter. CLARITY Protect sets the industry benchmark from the first stage of filtration to the moment your glass is filled with crystal-clear, refreshing water. We offer you over 50 years of filtration expertise in our “standard” filter.

CLARITY Protect reduces*:

Fine particles such as microplastics or sand

Metals such as lead

Pharmaceuticals, pesticides and hormones

Chlorine taste and odour

Organic impurities

Bacteria and cysts

Asbestos fibres

PFAS

*If present in the tap water

The right balance
preserves minerals in water

Activated carbon filtration reduces substances that impair taste and odour

Pre-filter removes coarse particles

Hollow fibre membrane
Nominal pore size of 0.15 µm
filters out 99.999 % of bacteria and 99.95 % of cysts

Filter capacity:
Protect: 11,500 l

Exceptionally clean, safe water

Protects equipment
lowering dispenser maintenance costs

CLARITY Protect

Technical data

Model	BRITA CLARITY Protect 100
Operating pressure	activated carbon and hollow fibre membrane filtration
Water intake temperature	4°C to 30°C
Ambient temperature for operation	4°C to 40°C
Ambient temperature for storage / transport	-20°C to 50°C
Water inlet and outlet connection	JG 8 mm
Operating pressure	2 bar to 8.6 bar
Flow rate at 1 bar pressure loss	180 l/h
Nominal filter capacity	11,500 l
Operating position	horizontal or vertical
Efficacy	
Reduction of particles such as microplastics or sand	≥ 0.5 µm (NSF 42, Class I)
Reduction of asbestos fibres	> 99.9 % (NSF 53 tested by independent laboratory)
Reduction of PFAS	> 99 % (NSF 53 tested by independent laboratory)
Reduction of metals such as lead	> 90 % (DIN EN 14898)
Reduction of chlorine	> 90 % (DIN EN 14898, Class I) and > 50 % (NSF 42)
Reduction of organic impurities such as benzene	> 90 %
Reduction of pharmaceuticals, pesticides and hormones such as naproxen, lindane, estrone	> 90 % up to at least 8,000
Reduction of bacteria	99.999 % (ASTM F838-20)
Reduction of cysts	99.95 % (NSF 53)
Dimensions (W x D x H)	
Filter system (filter head with filter cartridge)	68 x 68 x 338 mm
Filter cartridge	68 x 68 x 311 mm
Installed dimensions (vertical installation with wall mounting bracket)	68 x 74 x 371 mm

BRITA ThermalGate™

Hygiene feature: The patented thermal disinfection solution from BRITA.

The tap of a typical water dispenser is exposed. A sneeze or touch of a hand can introduce germs. Without a robust safeguard, microorganisms on the wet tap can go on to contaminate the dispenser. That's why our BRITA water dispensers include our ThermalGate™ feature. This regularly heats the tap to protect against contamination automatically. You can sit back and relax – knowing your water dispenser has a proactive, powerful defence against germs, tested by an independent laboratory (Ruhr District Institute of Hygiene).

Hydration made easy.

Enhance your daily routines.

BRITA goes beyond dispensers and filters. Our accessories simplify every step of your hydration routine – from dispensing to serving and cleaning – so your organisation experiences water the way it should be: seamless and dependable.

Our premium bottles are designed for easy refills at your water dispenser. Durable and customisable, they fit neatly into dedicated crates for safe storage and transport. To keep hygiene effortless, we also provide practical washing systems and cleaning solutions for bottles and water dispensers.

Just choose whatever fits your needs – and empower your organisation with smoother daily routines and more sustainable workflows. Our best-practice tip? We recommend cleaning your BRITA Water Dispenser daily for extra peace of mind.

Looking for ways to reduce plastic bottle usage?

Replacing plastic bottles with long-lasting BRITA bottles and corresponding accessories is an easy way to make a difference.

One partner. Zero hassle.

Everything you need for effortless drinking water.

BRITA Water Dispensers deliver refreshing, filtered water day in, day out — but the experience goes far beyond the dispenser itself. We install, maintain and keep every unit hygienically safe, so you never have to worry about availability.

Replace filters and adjust settings with our state-of-the-art BRITA Dispenser iQ Connect App. Your advantage? Precise diagnosis and error solving, leading to faster service resolution. One small app, but a significant step towards higher service quality!

We also offer financing, rental options and we're always on-hand to answer questions.

With a customised, comprehensive service package, you can enjoy our solutions with total peace of mind.

We're here for you.

Throughout the water dispenser lifecycle.

Safety through maintenance

Regular check-ups are essential for first-rate hygiene. We service water dispensers 1-2 times a year, supported by the BRITA Dispenser iQ Connect App – for clear data insights and maximum performance. Our rental and full-service contracts cover all repairs during the guarantee period.

Reliably high service quality

Our staff are regularly audited, and supervisors visit you to make sure every job meets your expectations in full. Continuous training programmes ensure our service quality stays at the highest possible level.

Advice and more – on tap!

Whether on-site or via hotline, our experts respond quickly and reliably, making sure you're completely satisfied at all times.

BRITA Service benefits

What you get from our full-service maintenance offering.

Cleaning

- Dispenser (interior/exterior) and base cabinet (for floorstanding dispensers)
- Chemical cleaning of all parts that come into contact with water
- Cooling unit fan and ventilation grille
- Drip tray and drain hose (where applicable)
- Dispenser tap and buttons or glass control panel

Visual inspection

- Robustness of dispenser and accessories
- Heat exchanger (cooling)
- Any exterior damage
- Any worn / defective parts
- Any potential leaks
- CO₂ hoses

Filter replacement

- BRITA filter(s) is replaced

Function test

- Set pressure/water (water pressure and pressure regulator)
- Function of the solenoid valves (timing)
- Carbonator-unit sensor probe
- Water meter check with digital/analogue documentation
- Buttons or touch display
- Temperature of dispensed water (cooling)
- CO₂ content (visual inspection of a glass of dispensed water)
- Flow rate of sparking/still water
- Electronics (in line with local requirements)
- BRITA ThermalGate™
- Safety valve of the carbonator-unit
- CO₂ pressure hose (CO₂ bottle / pressure regulator)
- Cooling unit

General

- Refresher training sessions for staff (optional)
- Digitally enhanced service with BRITA Dispenser iQ Connect App due to clear dispenser analysis
- Digital documentation of completed tasks
